Music to Be Sung Easter Sunday—Selected Programmes That Have Been Arranged for a Few of the Leading Richmond Churches. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

The Graham Trial Nearly Over—The Evidence Concluded and the Argument to Be Submitted by Counsel To-Morrow. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

A City Electric-Light Plant. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Some of the best manufacturing companies in this country will enter into bond with us to erect a plant such as we need—building and all—ready to run, for less than \$125,000, and will undertake to run it for \$30,000 or \$35,000 a year. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

We have heard from Mr. Glover (who has given to this subject patient, intelligent, and unprejudiced study), and this expenditure will put the city in a position to do work for which it is now to pay \$49,270 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Richmond makes money out of its water, and power, and it can also make money by doing its own electric street-lighting. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Why not do so? Why not to put ourselves in the hands of a private corporation to do as they please? Why not to let an individual or a corporation have the right to have the city's lights, to have to provide with hundreds of lights, would not buy and operate a plant to make those lights. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

The Masonic Temple Association has found it profitable to establish a plant of its own, and Richmond will have to get out of the hands of the City Light if it does not determine to do its own electric street-lighting. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Some of the best manufacturing companies in this country will enter into bond with us to erect a plant such as we need—building and all—ready to run, for less than \$125,000, and will undertake to run it for \$30,000 or \$35,000 a year. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

We have heard from Mr. Glover (who has given to this subject patient, intelligent, and unprejudiced study), and this expenditure will put the city in a position to do work for which it is now to pay \$49,270 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Richmond makes money out of its water, and power, and it can also make money by doing its own electric street-lighting. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Why not do so? Why not to put ourselves in the hands of a private corporation to do as they please? Why not to let an individual or a corporation have the right to have the city's lights, to have to provide with hundreds of lights, would not buy and operate a plant to make those lights. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

The Masonic Temple Association has found it profitable to establish a plant of its own, and Richmond will have to get out of the hands of the City Light if it does not determine to do its own electric street-lighting. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

Some of the best manufacturing companies in this country will enter into bond with us to erect a plant such as we need—building and all—ready to run, for less than \$125,000, and will undertake to run it for \$30,000 or \$35,000 a year. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum. The price of the paper is \$1.00 per week, \$5.00 per month, \$15.00 per quarter, \$50.00 per annum.

ed. They are left free to vote for some person other than Mr. Cleveland if when the national convention meets they find good reasons for not doing so. At present, however, the Democrats in Massachusetts prefer Mr. Cleveland, but they do not know what they will learn at Chicago calculated to induce them to support some other aspirant. We suppose that this conciliatory resolution was adopted in the interest of Governor Russell, who is a dark horse.

"Honest Bimetallism." "Honest bimetallism." What is that bimetallism? In the opinion of men who do not know that the public debt of this country is more now, expressed in pounds of cotton or bushels of wheat, than it was in 1865 notwithstanding that the government has paid off more than one thousand millions of dollars of the honest bimetallism. It is in issuing a currency of silver nine-tenths fine; but in the opinion of the men who have studied all the questions involved in honest bimetallism, it consists in so legislating as to wrong neither gold nor silver—neither the poor man nor the rich man.

Minnesota is in the far North-West. She gave in 1858 more than thirty-eight thousand votes for Hannibal. It is more nearly certain that she will vote for Hannibal again this year than that North Carolina or Georgia will vote for the Democratic nominee. Her Democrats need not consult prudence, or policy, or the wishes of the people when they undertake to construct a party platform. They are not likely to lose an unfavorable defeat at the ballot-box. It is used to be said jokingly in ante-bellum times that Boston Butler (as he afterwards came to be called) and his party associates in Massachusetts always took care to keep the Democratic party in that State so small that there were Federal offices enough to go round. That same strategy was a member of the convention of 1890 that nominated John C. Breckinridge for President of the United States. The lesson that we would teach is that we must not rely too much upon the Democrats of States which never vote for a Democratic nominee for President.

But what as to Minnesota? Nothing except that her Democrats in State convention assembled recommended the money-wise silver legislation, and the money-wise Democrats have ever recommended to the people. If their proposition were carried out it would ruin the currency of the country. They declare that the sole economic function of the government is to examine the relative values of the metals of coinage as established by the world, and if there has been a sufficient fluctuation in either to make a change necessary, to change the ratio of the coins. "So that the number of grains of
